

**AUTOMATE Query Copying**

- Eliminate gaps between PRD & DEV
- Lower Operational Costs

By automating complex BI processes we eliminate inefficiencies. Smart QCopy functionality allows seamless harmonizing queries between landscapes and environments

**LOWER COSTS**

Lower operational costs by automating manual tasks.

# Smart QCopy®

for BEx Queries

- Copies Queries across systems & landscapes without transports
- Copies Queries across dissimilar InfoProviders
- Lowers BW maintenance costs and BW deployment times
- Logs and reports on copy activity
- Helps in maintaining good naming standards

- Queries are created by Super Users in Production in a non-transportable name space (ex: Y\*)

- Those queries have to be regenerated in the Dev system with transportable name space (ex: Z\*)

- **Smart QCopy can help!**

- Several Queries exist on InfoSets

- You want to phase out InfoSets for performance reasons

- SAP's standard Query Copy tool cannot copy from InfoSets to other types of InfoProviders

- **Smart QCopy can help!**

- BW Prod system has too many unused queries (test, onetime, obsolete & wrong Queries).

- Need to clean up the BW Prod system

- **Smart QCopy can help!**

- New BW landscape has to be built based on an existing one (happens in spin-offs, mergers & acquisitions)

- Transport path does not exist between these landscapes

- **Smart QCopy can help!**

AUTOMATE

Eliminate Errors

Increase Quality

Do it Faster

LOWER COSTS

### TECHNICAL SUPPORT

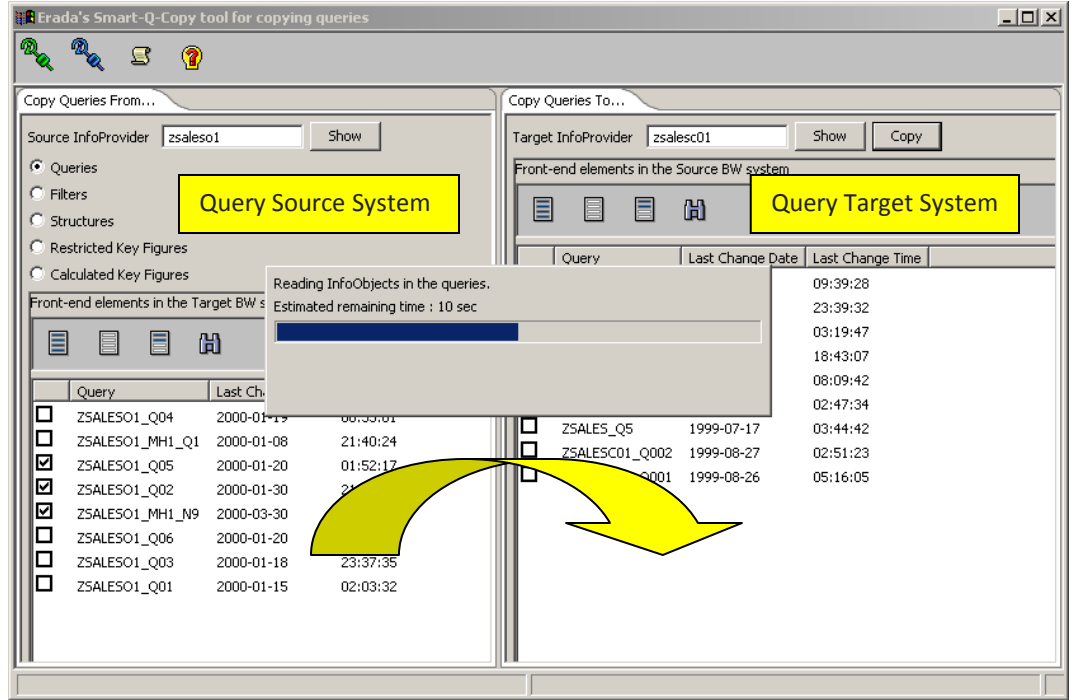

- 24 x 7 Technical support
- 2 days product transfer training
- Installed on local PC/Laptop

### ZERO DOWNTIME

- No Downtime requirements
- Can be connected to Production
- Provides copying instantly

### TURNKEY SOLUTIONS

- SAAS – Software as a Solution
- Cross System copying
- Cross InfoProvider copying
- Cross platform Copying
- Copying audit and QA

### About Erada

We are a 100% SAP focused company, formed by senior SAP resources coming from business, IT, DW, SAP and SAP BI backgrounds. We are a SAP Training Partner. We have assisted many US and global companies exceed their SAP business goals. Our teams have assisted customers audit SAP & BI Architectures, provide re-architecture solutions, run SAP, BI & BWA projects & manage end-to-end SAP lifecycles. Our focus is on delivering 'Business Value Assurance' to SAP customers.

### Erada Other Products

Area	Product	Service Offering	
SAP BI	SmartCube	Reduce report run times & data load times. Reduce InfoCube footprint on BWA. Design optimal Infocubes from ODS. <i>Seamless integration with BWA Workbench</i>	
	IO Discovery	Decrease BI development time and eliminate InfoObject redundancy. Identify the right InfoObject to match source data elements	
	My BI Repository	Catalog, Document and Categorize BW technical objects.	
SAP BWA	BWA Workbench	One stop tool for Data reconciliation, daily roll-up check, Planning, Sizing, Tracking, Forecasting, Simulating, & Optimizing BI Accelerator. Has an Operational BWA cockpit for routine support. <i>Seamless integration with SmartCube</i>	
SAP Suite	RapidPro	Rapid Optimizer	Enhance existing ABAP programs automatically. Drag & drop ABAP programs, tool provides optimized ABAP
		Rapid Scope	Output core logic of large ABAP programs for easier comprehension. Excellent ABAP documentation tool
		Rapid Index	Identify optimal secondary indices. Enhance performance of a group of custom ABAP programs
		Rapid Buffer	Automate optimization of buffer settings on database tables for enhanced performance
		Rapid Upgrade	Upgrade ABAP code to ECC, make Unicode compliant. Automate other ABAP relevant upgrade tasks
		<i>RapidPro components available separately</i>
